

How do you get into Medical School?

We've produced a really useful guide for your students interested in studying medicine at university. It's completely free so feel free to link to it below or forward onto your students considering medicine who are aged 14-17.

It covers all the questions we usually get asked by students surrounding the application process to med school from personal statements to interviews, UKCAT examinations, work experience and A-level questions.

Here's the link:

<https://www.premedprojects.co.uk/applying-to-medical-school-the-guide-2019>

We hope it can be useful to your students considering careers in medicine and that it can be added to your school resources list. We also welcome any questions from your budding medics anytime!

Best Regards

Jasmine Little
